### CORNVILLE NUBBINS

Cornville, Ariz., Apr. 10.

Little Edna Hurst is quite sick at the present writing.

Mrs. Wm. Henderson was a Jerome visitor last Saturday.

Myron A. Rhea leaves Tuesday for his home in Yates Center, Kan.

The L. L. Johnson residence will be completed in the near future.

Lon Mason, Cottonwood's merchant, was a visitor at Cornville Sunday.

Miss Winnie Dickinson is spending the week with her sister at Cottonwood.

Mrs. Albert Tilson was quite sick last week but is much improved at present.

Miss Hotchkiss gave a picnic Saturday to her pupils, all of whom had the time of their lives.

Mrs. Hazel LaPlant returned last week from Ohio where she visited with her mother for the past few months.

The postoffice has acquired a neat, new sign; also its doors and windows have donned a festive look, all because of a simple little brush, wielded by the artistic hand of our genial postmaster.

An automobile party enroute to Flagstaff passed through here last week and to all appearances the machine was quite balky and required much persuasion to take the hill and rough places of the valley, but was finally pacified into a sulky willingness to proceed to its journey's end.

Wm. Newton sold his ranch last week to an unknown party for a consideration of \$2,000. Mr. Newton has only been in the valley about two years but in that time has improved his ranch from only a little patch of alfalfa to a beautiful and well-ordered place—putting into cultivation much ground which was before considered above water. We are sorry to lose Mr. Newton and hope his successor will prove as progressive.

### TUBA NOTES

Tuba, April 9, 1911.

Wm. Switzer of Flagstaff and Mr. Spencer of Lee's Ferry were visitors at Tuba on the 2d inst.

Mr. and Mrs. S. S. Preston entertained the people of Tuba at a picnic at Reservoir canyon today. Everybody present enjoyed a bountiful repast and a general good time.

Mr. and Mrs. Dr. Mulliken entertained the married people of Tuba at an April fool party on Saturday evening, April 1, and a very enjoyable time was reported by all present.

The Desert Club of Tuba held its regular quarterly meeting for the election of officers on the last Monday evening in March, and elected the following officers: President, J. W. Shafer; secretary, Ira Bell; treasurer, W. E. Garthwaite.

A party of three lady tourists from New York, in charge of two guides, arrived in Tuba yesterday from the Grand Canyon and will return there Monday. They are very enthusiastic over the scenery between the two places, especially the Canyon of the Little Colorado.

If you have sore eyes of any kind use Sutherland's Eagle Eye Salve. It is good for nothing but the eyes. It is painless and harmless and positively the best. If you don't say so we will refund your money. Try it and then tell your neighbor. Sold everywhere. 25c a tube.

For cement blocks, concrete or cement walks see Raudebaugh now,

### TRY SITTING AS A MODEL

Grace MacGowan Cooke Found That Good Way to See Herself as Others Saw Her.

A good way in which to see oneself as others see one is to sit as a model to a class of students. A writer in the New York Times gives the experience of Grace MacGowan Cooke, who, before she became an author, tried to fit herself to illustrate stories written by others, and to that end studied at the School of Design in Cincinnati.

Mrs. Cooke's profile is fairly regular, and she was in some demand to sit for the sketch and life classes where the students took the task of posing in rotation.

It was at the time that metal repousse work was most popular, and she reports sitting one morning with her hair in a portentous Psyche knot and a double fillet over her head, while a painting apron that chanced to have a key-pattern border was draped across her shoulders to hide her street dress, and listening to the exceedingly frank comments of her fellow students as they worked.

She had been enlightened considerably as to her facial angle, the length of her countenance from eye to lip, and various other details, when one enthusiastic young woman capped the sheaf.

"Well," she remarked, "I just think she's got a beautiful head to pound on brass. Don't you think you'd love to hammer that profile of hers?"

### PRICE OF RADIUM IS LOWER

Joyful News Is Given Out That the Metal Now Costs Only \$2,100,000 an Ounce.

The price of radium is lower now. The Scientific American says:

"Sir William Ramsay recently announced that radium now costs \$2,100,000 an ounce, which price is slightly less than the value given by him about a year ago, as \$2,500,000. A year ago there was said to be about one-quarter of a pound of radium in the world. As a matter of fact, the actual quantity is not now much greater. Radium banks have been established in Paris and London for the purpose of lending radium at a price. As much as \$200 has been charged for the use of 100 milligrammes for a single day."

In fact, there is not an ounce of pure radium in the world. It is all but a very little in combination with other elements. But there are tons of it in the earth giving life to all animals by its emanations.

### UNEXPECTED ANSWER.

A prosperous business man of a natural cheery disposition was baffled in an attempt to inspire cheer into three members of the laboring class the other day. The business man was taking a party of friends through the old Granary burying ground, and in their tour of inspecting the graves of notables they came across three grave-diggers, who were eating their lunches on the top of one of the large, flat tombstones.

"Well, my men," remarked the leader of the touring party, "aren't you inspired with awe eating your dinners on the gravestones of great men?"

"H—, no; we've got to eat somewhere."—Boston Journal.

### KISS TOLSTOY'S GRAVE.

Tolstoy's grave at Yasnia Poliana is likely to become one of the chief places of pilgrimage in the empire. Since the funeral large numbers of peasants arrive there daily. They come mostly on foot, and many are now on the way there, tramping from places far distant.

At the grave many hundreds may be seen on their knees, chanting and kissing the soil. The pilgrims are allowed to pass through the rooms which Tolstoy occupied, where nothing has been disturbed. There is deep resentment at the holy synod's action in forbidding memorial services in the orthodox churches.
